EDUCATION

University of Texas at Arlington,

(anticipated) **Spring 2025**

Bachelor of Science in Software Engineering

- Coursework: Data Structures and Algorithms, Object-Oriented Programming, Computer Organization and Assembly

TECHICAL SKILLS

Languages: Java, C, C++, HTML

Applications/Tools: Git, GitHub, VS Code, NetBeans, Code Blocks

PROJECTS

Adventure World- Java, Swing components

- Built an interactive trivia game on an adventure map that engages the user by asking a series of questions on various topics to advance to the next level
- Included different tiers of difficulty and challenges to add a variety of enjoyment

Character Guessing Game- Java

- Designed a guessing game that displays a character from the TV Show GAME OF THRONES and asks the user to enter the character name.
- Also Displays a hint for the user and responds if the game guess was correct or not

Trick or Treater Simulator- Java, Swing components, Threads

- Created a Halloween themed project that simulated a group of trick or treaters visiting different homes and receiving candy from each.
- Displayed the candy bag for each trick or treater after all are finished

ORGANIZATIONS AND POSITIONS

Association for Computing Machinery (ACM)

Spring 2023- Present

ACM Member, HackUTA Logistics Organizer

- Spearheaded technical workshops and designed an event schedule for 700+ potential participants to engage in during the 24 hours of hacking and delegated tasks to staff/volunteers
- Aided with the restart of the UTA Chapter and managed recruitment over 300+ members in 3 months, community engagement, and organization social media

UTA Men of Distinction (MOD)

Fall 2022- Present

MOD Board Member

- Coordinated and participated in weekly organizational meetings designed to increase the retention and graduation rates of Black and Latino Males on UTA's campus
- Held and educated dozens of MOD members on variety of topics and discussions that range from toxic masculinity, credit, budgeting, and other social relevant topics to men of color.

UTA Muslim Student Society (MSA)

Spring 2022- Present

Showdown Chair

- Generated numerous ideas of collaboration between dozens of MSA organizations at different schools designed to foster camaraderie between hundreds of Muslim students across Texas.
- Organized and scheduled various events in unison with other showdown chair members from different schools

UTA Software Engineering Organization (MOBI)

Fall 2022-present

WORK EXPERIENCE

US Small Business Administration- Remote

May 2020- April 2021

Loan Services Representative

- Manage hundreds of inbound and outbound calls daily in a timely manner
- Determined loan eligibility by comparing customer's information to requirements and analyzed loan officer notes to determine customer's loan status

Banzai Event Marketing- Remote

May 2021- Nov 2021

Event Registrant Caller

- Communicated with private individuals and business regarding registration of events
